

Smoke Free Buildings

The Park West School Division as an employer and an educational organization believes that all tobacco products, smoking, substitute smoking materials (e-cigarettes), and second hand smoke have an adverse effect on the health of both smokers and non-smokers. The Division also believes that the children entrusted to its care have a right to be protected from the serious effects posed by all tobacco products, smoking, substitute smoking materials (e-cigarettes), and second hand smoke.

Therefore all school buildings, school grounds and division owned or leased vehicles are designated free of all tobacco products and substitute smoking materials (e-cigarettes). The use of tobacco is permitted for cultural or ceremonial purposes.
