

COVID-19 Update

March 14, 2020

Park West staff, students, and families

You have already heard that the Province of Manitoba will close all schools effective Monday, March 23 to Monday, April 13. **Schools will be open this coming week** (March 16-20).

A number of decisions remain under consideration as we plan for the upcoming closure. We recognize the impact that it will have on staff, students, families, and the broader community. Therefore, we need to be thoughtful in our planning over the next week. We will continue to communicate with you as additional information becomes available.

Thanks to everyone for their patience and understanding during this rapidly evolving situation. Thank you also for you for your efforts in supporting each other. These are certainly challenging times, but in such times, the true character of individuals and communities becomes evident. I have every confidence in our schools, our communities, and our people to work together for our collective well-being.

Thank you,
Stephen David
