

School Advisory Councils

The Park West School Division Board of Trustees recognizes the need for opportunity for parents and community members to play a meaningful and significant role in the education of the children of the Park West School Division. Thus, when requested by parents, each school shall assist in the establishment of an Advisory Council for School Leadership representing parents and community members within its catchment area. Each school will, where an Advisory Council for School Leadership exists, include the council in school planning. The establishment and functioning of advisory councils for school leadership shall be in accordance with the Manitoba Education guidelines on such councils.

The Park West School Division will pay membership fees to the Manitoba Association of Parent Councils on behalf of established Advisory Councils for School Leadership.
