

Park West School Division

Health Care Aide Program

Are you interested in a career in the health care industry? Would you like to receive your training closer to home?

Park West School Division is partnering with Assiniboine Community College to deliver a fully accredited Comprehensive Health Care Aide program.

The program will be housed at Birtle Collegiate with practicum placements in various communities throughout the division.

Our next class begins on January 11th with students graduating from ACC in June. The program is open to both current students and residents of Park West.

The program announcement may be found at:
